

Is Your Phone System Putting Your Business on Hold?

Modernize your business communications with a move to the cloud!

CUT COSTS. IMPROVE PRODUCTIVITY. CREATE BETTER CUSTOMER EXPERIENCES.

Your business phone system may have served you well, but will it help take your business to the next level or hold you back? If you want to keep up with the ever-changing workplace environment, high customer expectations, and technology advancements, it is time to switch to a cloud communications provider that can not only get you there but also reduce your costs.

Elevate is an all-in-one cloud communications platform that brings you a business phone system, chat, video conferencing, business texting, file sharing and storage, and so much more. Moving to a cloud communications platform is one of the easiest and quickest ways businesses can cut costs while improving business performance.

WHAT TO CONSIDER WHEN COMPARING BUSINESS COMMUNICATIONS SYSTEMS

ON-PREM PHONE SYSTEM	CONSIDERATIONS	ELEVATE CLOUD COMMUNICATION PLATFORM
While you may have paid off your phone hardware, there are ongoing maintenance, support, phone line and long-distance costs.	COSTS	One low, per user cost includes collaboration services, phones, phone lines and long distance. And there's no maintenance, upgrade, or support costs.
This system is designed to only support voice features (voicemail, call-forwarding, call-waiting, call groups, etc.)	FEATURES	The modern workforce requires voice, chat, video conferencing, business SMS, file sharing and storage. And desktop and mobile apps are included.
It's tied to your office. Employees must be in the office to utilize the phone system.	EMPLOYEE PRODUCTIVITY	Employees can be in the office, home, remote or anywhere in between.
Not designed to provide great customer experiences.	CUSTOMER EXPERIENCE	Lets customers communicate with your business in multiple ways including text. And, gives you tools to ensure customer interactions are quick and positive.
This system is made of hardware with software and will not get the latest technology.	NEWEST TECHNOLOGY	You will always get the latest technology available, including AI and business analytics, and whatever comes next.
A standard on-prem phone system is a depreciating asset which will ultimately be worthless.	FUTURE	The Elevate cloud communications platform will continue to get better and better as new features are added and new technology is available.
